## PROFILE

I am a hardworking and experienced Front-end Developer. I have been doing development since 2017. I did jobs for a company called Sunno Software for 1 year as React Front end developer. Now doing a job on [Decentralized Brains](#) as Front end developer. Which is a web3 and blockchain startup.

## WORK EXPERIENCE

### Front End Developer at , Sunno software. Rajshahi, Bangladesh

November 2020 – December 2021

I am a hardworking and experienced Front-end Developer. I have been doing development since 2017. I did jobs for a company called Sunno Software for 1 year as React Front end developer. Now doing a job on Decentralized Brains as Front end developer. Which is a web3 and blockchain startup.

### Front End Developer at , Decentralized Brains, Rajshahi

December 2021 – Present

Blockchain and web3 technology are the future. Mainly for security purposes. That's why besides doing my first jobs I started to learn web3 technologies like Solidity, ether js, NFT etc. And join this start-up as a front-end Developer. Main tools Next js, React js, ether js (web3 technology).

## EDUCATION

### Bachelor in Computer Science Engineering (undergraduate)

January 2020 – Present

## COURSES

### Redux Course, Learn With Sumit

August 2022 – October 2022

## ACHIVEMENT

Hackathon: **BUET CSE Fest 2022**

Category: **Web3 and Blockchain**

Position: **Second**

## PROJECTS

I did around 70-80 projects in my lifetime. Some of my projects are given Below :

[Decentralized Brains](#)

[Net Fee](#)

[My website](#)

[NFT marketplace](#)

[Instagram Clone](#)

[Movie Review](#)

[E-commerce](#)

[Dorac](#)

There are lots more Projects
